

TECHNOCHEM
INTERNATIONAL CONSTRUCTION CO.

ABOUT US

With a modest beginning in the business starting from the year 2015, passionate leadership has made us emerge as a group of companies offering turnkey solutions to various industries under one umbrella. With main expertise in steel fabrication, the group expanded its areas of business by collaborating with specialists to formulate designated companies to provide specialized services for each sector of the industry.

Today we have our presence in Middle East and East Africa. The rapid growth in a short span of time proves our quality, our service and our commitment towards our projects and our esteemed clients. Over a decade, we have not only just explored new territories but also, we take pride in serving different industries such as oil and gas, refineries, infrastructure, water distribution networks, marine and offshore projects, residential and industrial projects.

With a settled team of experts, experienced as well as energetic talents, we ensure high quality in our projects. We keep a close eye on the evolving technology and use of the latest technology to ascertain the improvement in the quality and efficiency at work.

VISION

To be a leading technology driven turnkey solution providers better known for the quality and commitment.

MISSION

Quality oriented customer satisfaction is our mission. We aim to be the most trusted service providers in the industries we serve by delivering high quality projects consistently.
